

My name is Morten Juhl Hansen.

I am 55 years old and agility has been a part of my life since 1994. I am married to Merete and we have a son and four border collies at the moment, aged between 2 and 13 years.

I am an active competitor and have participated at the Nordic and world championships several times and also participated in the invitational event at Crufts 2 times.

I have been a judge since 2007. I try to design my courses so it is possible to have more ways to handle the course and thereby make the handler decide which type of handling will be the fastest.
